

JC Screen Printing

1) Screen Printer and 2) Apparel ordering/check in person

2) They start at \$12 with no experience (as I can train all aspects of the job) - more if they have experience.

Unfortunately in this industry, there are not medical benefits (one day we hope to be big enough to do that - but that is years off)

Biggest advantage we have here is the flexibility and fun of working in this environment. Not to say things can't get stressful from time to time due to workload, LOL.

3) Is a customer service role - this would be a main role - lots of growth opportunities here.. possibly management growth - again starts at \$12 with no experience, more if they have it, but probably nothing more than \$17 if they have experience to start. Will train everything as well.
