

The Enterprise Technology Department is seeking high school students for the 2022 Summer Internship Program. Desired applicants will possess programming knowledge and/or experience and a strong desire and ability to learn new technologies in a collaborative work environment. Applicants should have strong written and verbal communication skills and good presentation skills. Applicants must be at least 16 years of age by the start date (June 6, 2022) - no exceptions. This internship is intended for applicants from the Bloomington-Normal and local surrounding areas.

Internship dates: June 6, 2022 – July 29, 2022

Due to an anticipated high volume of applicants, the posting will only be open for two weeks. Therefore, it is important for those who are interested in the internship to get their application in early.

Interested candidates should take the following steps to apply:

- [Internships | State Farm Careers](#)
- Navigate to Find an internship
- In the search field enter: 23889
- Select Apply Now
- Follow prompts to create a profile
- Applicants must attach a resume and transcript (unofficial copy is acceptable). These documents must be combined into one document and attached to the application.
- Complete application & submit

Additional details are available under job posting 23889.
